WORLD *of* WIPES

www.kleen-pak.com

your global partner in wet wipes manufacturing

COMPANY OVERVIEW

Established in 2003, Kleen-Pak has grown to become one of Southeast Asia's leading manufacturers of premium quality wet wipes and a specialist contract manufacturer of finished, shelf-ready wet wipes products. With years of expertise, we are able to advise on specifications, formulations and manufacture in accordance to our customers' requirements.

With our combined strengths in production experience, market knowledge & operational skills, we aim to be the preferred partner of our private label & contract packaging customers in meeting their needs in the supply of hygienic wet wipes production.

Headquartered in Singapore, our manufacturing facilities located in Singapore and Vietnam are equipped with advanced state-of-the-art and fully automatic wet wipes manufacturing lines with combined manufacturing facilities with over 20,000sqm.

In 2014 Kleen-Pak Industries (Vietnam) Co. Ltd. was setup in Binh Duong Province, about 45km from Ho Chi Minh City, is equipped with advanced, fully automated wet wipes manufacturing lines. It is a 100% owned subsidiary of Kleen-Pak Products Pte Ltd in Singapore.

Our operations and management systems are all ISO 9001/ ISO 22716 / ISO 13485 / Asean Cosmetic GMP certified. We have a large portfolio of wet wipes ranging from national brands to private labels and contract packaging across a wide variety of applications, folding formats, nonwoven substrate options, product formulations and packaging styles to cater to our ever expanding customer base.

Working with independent agencies, we offer extensive in-house capabilities such as product and process validation, formulation development, microbiological and analytical testing, liquid manufacturing, product design, compatibility and stability studies, graphic services, supply and logistics.

Our Global Market Presence

QUALITY & OPERATIONS

Kleen-Pak has quality accreditations to ISO 9001 / ISO 22716 / ISO 13485 / Asean Cosmetic GMP for our Quality Management System. All products at Kleen-Pak are manufactured under strict compliance to the guidelines of Cosmetic GMP by the Health Sciences Authority from the Ministry of Health. We conduct regular quality and safety meetings with all stakeholders to ensure continuous improvement in quality and operational excellence at all levels, including regular audits on suppliers and at the same time audits conducted by our customers

We work with various organisation on projects where we are developing specialty wet wipes with unique substrates, formulations and inspections on your products in order to carry the various different claims that are highlighted below.

These are a few of the steps we take to ensure we develop, manufacture, and deliver premium quality wet wipes:

- Our advanced 12-stage reverse osmosis system uses Electrodeionisation (EDI) as a post treatment of reverse osmosis water to ensure every wipe contains ultra-pure deionised water. Samples of purified water and compounded liquid are collected routinely for in-house and external microbiological testing to ensure their highest quality.
- Maintain ISO 9001 certification for all our facilities.
- Stringent quality control at all levels of manufacturing processes from starting materials, liquid manufacturing intermediate products to finished goods are carried out religiously by our highly-skilled production and
- An environmental monitoring programme at key production areas ensure that our wet wipes are always manufactured consistently under safe and hygienic conditions.
- Metal detection devices are installed at high-speed fully automatic wet wipes lines to prevent any metal contamination.
- Our wet wipe products undergo rigorous quality control testing and inspection before leaving our facility.
- We conduct internal audits of processes and have our external auditors to our facilities as well

ēcokleen®

Bio-Plastic Material

PCR Laminate

100% Mono PE

Banding Strips

We are passionate about bringing positive changes into our world, by creating *ēcoKleen* – a holistic concept of biodegradable wet wipes.

When you choose *ēcoKleen*, you are making a conscious decision to help create a better world with environmentally-friendly packaging and 100% biodegradable wet wipes.

We are here as your sustainability partner to provide your products a competitive edge over your competitors. Contact us at enquiries@kleen-pak.com to find out more!

4 Pillars of *ēcoKleen*®

100% Biodegradable & Compostable

Biodegradable and Compostable

- Our non-woven substrates have been tested to decompose within 45 days.

Harvested from Sustainable Resources

- It is tender on skin, yet efficient in cleaning.

Available Options

- 100% viscose, 100% bamboo, blend of viscose with cotton, wood pulp or bamboo.

Mono-Plastic Laminate

Designed for Recycling

- We offer Recycled (PCR) Plastics Laminate, 100% Polyethylene (PE) or Polypropylene (PCR PP) for flexible packaging.

Reduce Plastics Content

- Reduce conventional multi-plastic laminate content by at least 25%.

Available Options

- Enhance protection and brand reputation by using sustainable packaging with matt, gloss or hybrid finish.

Earth Friendly Formulation

99.9% Pure Water

- Our purified water went through a 12-stage reverse osmosis cum EDI filtration system.

Food Grade Formulation

- All ingredients are food grade or food contact safe and have been tested with acute oral toxicity.

Natural Formulation

- Our formulation is free from harsh chemicals and compliant to REACH and RSPO.

Reduce Reuse Recycle

Closure Systems

- Replace plastic lids with flip labels to reduce plastic content by 90%. If plastic lids are needed, choose re-usable plastic lids to reseal subsequent packaging.

Secondary Packaging

- Reduce plastic content by bundling individual packs with banding strip. Alternatively, recycle-friendly PE material are recommended for outer bag.

Plastic Articles

- Our canisters' content can be substituted by up to 25% of BioPlastic and PCR (Post Consumer Resin).

As a leading manufacturer in Southeast Asia, we produce a wide range of wet wipes from Baby Care, Personal Care, Home Care, Medical Hygiene, Pet Care, Auto Care and many more for premium brands across the world.
